3123 E. Thompson Rd.
Indianapolis, IN 46227

*Lunch will be provided that will accommodate vegetarians.
We regret we cannot meet special dietary requests. Please
bring your own lunch if you are on a special diet.*

The Certified Lactation Specialist Course is designed for the aspiring lactation consultant, Breastfeeding Coordinator, CPA, Peer Counselor or others desirous of improving their knowledge base and skills in working with the breastfeeding dyad.

All areas included on the IBLCE exam are addressed. The 5 day course provides 45 of the 90 necessary hours of continuing education in lactation to qualify to sit for the IBLCE exam. Lactation management skills are taught through practical application of scientific principles.

The course is continuously updated in response to changes within the profession and the rapidly expanding body of scientific knowledge. Certification as a lactation specialist is achieved through attendance of the entire course and successful completion of the end of course exam on the last day.

This certification is a stepping stone to the IBCLC credential. It is hoped that those who attend this course ultimately go on to become board certified, although that is not a requirement.

During this very practical course, participants will be taught how to use appropriate counseling skills, how to teach mothers and families, and most importantly, how to function hands-on as a clinician.
